It began as a game ... or at least, as a competition.

Reika Mimura came from a wealthy family and never wanted for anything. Then, her uncle died and left her with a single unusual wish: find a previously unknown cousin and allow him to live in the family home with her. Her cousin, though, has other ideas.

Reika is woefully unaware of her family history: while she is a normal girl interested in sex like anyone else, her family has for years practiced dominion over its women. This puts her in the middle of a bizarre ritual between her current boyfriend and her sadistic cousin: the one who breaks her is the one who gets the house and the money. Certainly Reika had no idea what her uncle had in store for her.

The beginning of a new set of fantasy erotic anime in the tradition of "Cool Devices," the Vanilla Series presents disparate themes of erotica by various authors and artists which will take your breath away...
